

CPR ZYMESS 23

GREASE AND WASTE DIGESTER

DESCRIPTION

A proprietary blend of enzymes and surfactant which treats and maintains drains and grease traps as well as augments bacterial strains in septic tanks

BENEFITS

- Improves grease trap performance
- Opens slow or stopped drains
- Neutralizes Odors by attacking the organic source of odors
- Keeps beverage drain lines open
- Neutral pH
- Sustainable cleaner, 100% Bio-degradable
- Will not generate heat or corrode plumbing
- Having the broad spectrum of enzymes, ensures the breaking down of all the organic matter in a grease trap from FOG'S, to starch to sugars.
- Safely clears drains without toxic bleach or chlorine.
- Naturally occurring elements so they are "Planet-Safe", as well as being plant based and won't affect natural bacteria in the sewer system.
- Safely clears drains without toxic bleach or chlorine.

PRODUCT SPECIFICATIONS

pH @ 100%	6.5 to 8.5
Color(Visual)	Dark Red
Appearance	Liquid
Odor	Citrus
Specific Gravity	1.025 to 1.030 at 25°C

CPR ZYMESS 23

GREASE AND WASTE DIGESTER

DIRECTIONS

For best results, use at nights or off hours. Grease trap should be pumped clear prior to initial treatment. **DO NOT MIX THIS PRODUCT WITH OTHER CHEMICALS**

GREASE TRAP TREATMENT START UP

Pump out the grease trap before starting the treatment. Then add ZYMESS 23 directly into grease trap at the rate of 120 ml per 370 litre of grease trap. The above mentioned dosage to be repeated every three days. If there are odours coming out of the drains leading to the grease trap then dose down the drains that lead to the trap.

DRAIN LINES

Pour 120 ml for slow drains and 240 ml for stopped drains directly into drain. Use daily until drains are clear

BEVERAGE TOWERS

Pour 120 ml into drain lines twice per week. Allow formula to work for 5 minutes. Flush drain with a mug of warm water

URINALS & COMMUNES

Pour 120 ml into problem drains twice per week for odor control

ZYMESS 23, Grease and Waste Digester. The enzymes in our Grease & Waste Digester break down grease & odours into their basic elements. Carbon, hydrogen and other elements readily integrate with the environment instead of polluting it. Plus, our enzymes completely remove odours.
